

ISSAM BADAoui

FULL STACK WEB DEVELOPER & CYBERSECURITY RESEARCHER

Email: badaouiissam660@gmail.com | GitHub: github.com/issambd29 | Location: Algeria

LinkedIn: linkedin.com/in/issam-badaoui | Portfolio: issam-badaoui.web.app

PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer and Software Engineer with strong expertise in architecting scalable modern web applications (React, Tailwind CSS, Django, PostgreSQL) and cloud backends. Passionate cybersecurity enthusiast and active CTF player (TryHackMe & OverTheWire Natas) dedicated to web application penetration testing, OWASP Top 10 mitigation, and defensive coding. Proven track record delivering enterprise client platforms (Snai3i) and digital academic portals (Madrassat El-Itqane).

TECHNICAL & SECURITY SKILLS

Frontend & UI: React.js, Next.js / Vite, Tailwind CSS, JavaScript (ES6+), HTML5/CSS3, Three.js, Responsive Design, Figma
Backend & DB: Python, Django, REST APIs, Node.js, Express.js, PostgreSQL, Firebase (Auth/Firestore), SQLite
Cybersecurity: Web App Penetration Testing, OWASP Top 10, OverTheWire Natas, TryHackMe, Linux Security, Burp Suite
DevOps & Tools: Git & GitHub CI/CD, Docker, Render, Vercel, Postman, Linux / Bash Scripting

WORK & PRACTICAL EXPERIENCE

CTF Player & Aspiring Penetration Tester

Sep 2026 - Present

TryHackMe & OverTheWire (Natas)

- Solving offensive security challenges & war-games (OverTheWire Natas), analyzing and exploiting web vulnerabilities including command injection, SQLi, directory traversal, and session manipulation.
- Mastering network reconnaissance, Linux privilege escalation, and modern web application security testing on TryHackMe.

Full-Stack Engineer (React & Django / PostgreSQL)

Sep 2025 - Present

Snai3i Enterprise

- Architected enterprise-grade client portal and Point Tracker backend using React, Tailwind CSS, Django REST Framework, and PostgreSQL hosted on Render.
- Engineered transactional customer loyalty logic, secure JWT authentication, responsive dashboards, and optimized relational database queries.

Lead UI/UX & Web Developer

Sep 2025 - Present

Madrassat El-Itqane Quranic School

- Designed and deployed the official institutional web platform and inventory ERP system featuring real-time Firebase syncing and custom Arabic RTL user interfaces.
- Delivered attendance tracking, student progress metrics, and secure administrative controls with 99.9% uptime.

Frontend Web Developer & Mobile Developer

Sep 2024 - Sep 2025

Client & Independent Projects

- Engineered pixel-perfect, accessible client applications using React, React Native (Expo), modern CSS, and RESTful API integrations.
- Collaborated closely with stakeholders to translate business requirements into high-conversion digital experiences.

FEATURED ENTERPRISE & WEB PROJECTS

Snai3i Point Tracker (Enterprise Platform)

React, Tailwind, Django REST, PostgreSQL, Render

Comprehensive customer loyalty and transactional accounting web ecosystem with admin reporting dashboards and tokenized authorization.

El-Itqane Educational Ecosystem & Manager

React, Firebase, Firestore, Tailwind CSS, Arabic RTL

Full-scale educational academic portal & cloud inventory management ERP for students, teachers, and school operations.

Interactive 3D Portfolio & Web Experience

React, Three.js, React Three Fiber, Framer Motion, Tailwind

Cutting-edge responsive 3D developer showcase with interactive GLTF computer workstations and animated timelines.

EDUCATION & LANGUAGES

Education: High School Degree / Baccalaureate in Mathematics | Independent Engineering & Cybersecurity Scholar

Languages: Arabic (Native), English (Professional Working Proficiency), French (Working Proficiency)
